SOPHISTICATION

Our town, downhome, yet sophisticated; two worlds existing side-by-side. One world puts its trust in the future, the other cherishes the past. We take pride in our elegant, stately Victorian homes, and in the thin wires that connect these homes to the rest of the world. We have farmers with weathered faces, who operate the latest harvesting machines. We have small-store owners who take their inventory on computers. There are company executives who drive home at lunch to feed their livestock. Waxahachie has the best of both worlds combined to make the people feel at home whether they were born here or are new to our community. The feeling that brings the two worlds together is Indian Pride.

## GOOD GUYS FINISH FIRST

The Fellowship of Christian Athletes is an organization especially for the guys in sports who appreciate the special gifts that God has given them. These dedicated guys meet every Wednesday at 6:31 ½ P.M. in designated homes where they have Bible study and refreshments. Through the year they learn how to grow in Christ, minister, and witness to others.

Thespian membership is a sign of experience. These seven young stars and starlets have had many hours of cold, boring, nerve-racking rehearsals, suffering severe anxiety attacks which cause for upset stomachs and crazy minds. # CHOIR WAS TUNED IN

## Choir Brought Confidence To Forefront

**A note here, a note** there ... sounds easy huh? It's not! The hardest part is getting the harmony and rhythm just right, and putting it all together.

Confidence is a trait that a choir member must have. To be able to know what comes next and how to approach it as a group is a great challenge. It also takes a strong leader to take command.

**Although Mrs. Hettle is new** to the school, she is very well-liked and turned out to be a good director. The choir has performed at contests and concerts that were open to the public. They also performed at graduation for the benefit of the out-going Seniors. Overall, the choir has been an indispensible part of Waxahachie High School, and they hope to uphold their quality and increase membership in the coming years. The student body wishes them success and harmony in the years to come.

"Choir is a place where I do what I love to do; sing. I can let myself go and I don't have to worry about what people say about me."

"FTA is not just for teaching, it helps a person to gain understanding about the art of teaching. We learn the many characteristics it takes to be a teacher."
-Jana Fenton

There are many things that contribute to the making of a teacher, but the most important of these is experience. Experience means listening to lectures, being around teachers, going to District and State Conventions. F.T.A. is centered around that purpose.

# PAST FINDERS

## JR. HISTORIANS KEPT PAST ALIVE

**Jr. Historians kept history** in view many ways. They researched information to help area historic sites receive historical markers. They wrote papers for the state conventions and made projects as well. These past finders also kept the club active by increasing their funds by selling spirit ribbons each week. Also to keep spirit up, the Jr. Historians had a pizza party and a Christmas gathering.

"I like Jr. Historians because we meet a lot of interesting people."

# AGRICULTURE STUDENTS

## FUTURE FARMERS

**The Future Farmers of America** kept very busy going to many competitions. Ag was not just feeding cows and loading hay. During competition, they had a radio team which performed a show, and they had a quiz team which studied the FFA handbook and took a test. They had many other teams such as parlimentary procedure which specialized in parlimentary rules. The Future Farmers proved that agriculture students had brains as well as the know how to take care of animals.

Karen Butner spent time shearing her sheep.

# FHA LOOKS AHEAD

## HOMEMAKERS PREPARE FOR THE FUTURE

Future Homemakers of America is a club that is interested in doing things for their community. They care about each other and what is going on in the world. FHA is a vocational club with its members in a wide variety of work areas, for example: food services, child care, and clothing sales. All of these are community services that provide good experience for the future.

This year members of FHA helped to support a mentally retarded boy attending Mexia State School. They have given tremendous relief to the parents, who were very grateful. The members have learned a lot from the experience in helping others in need.

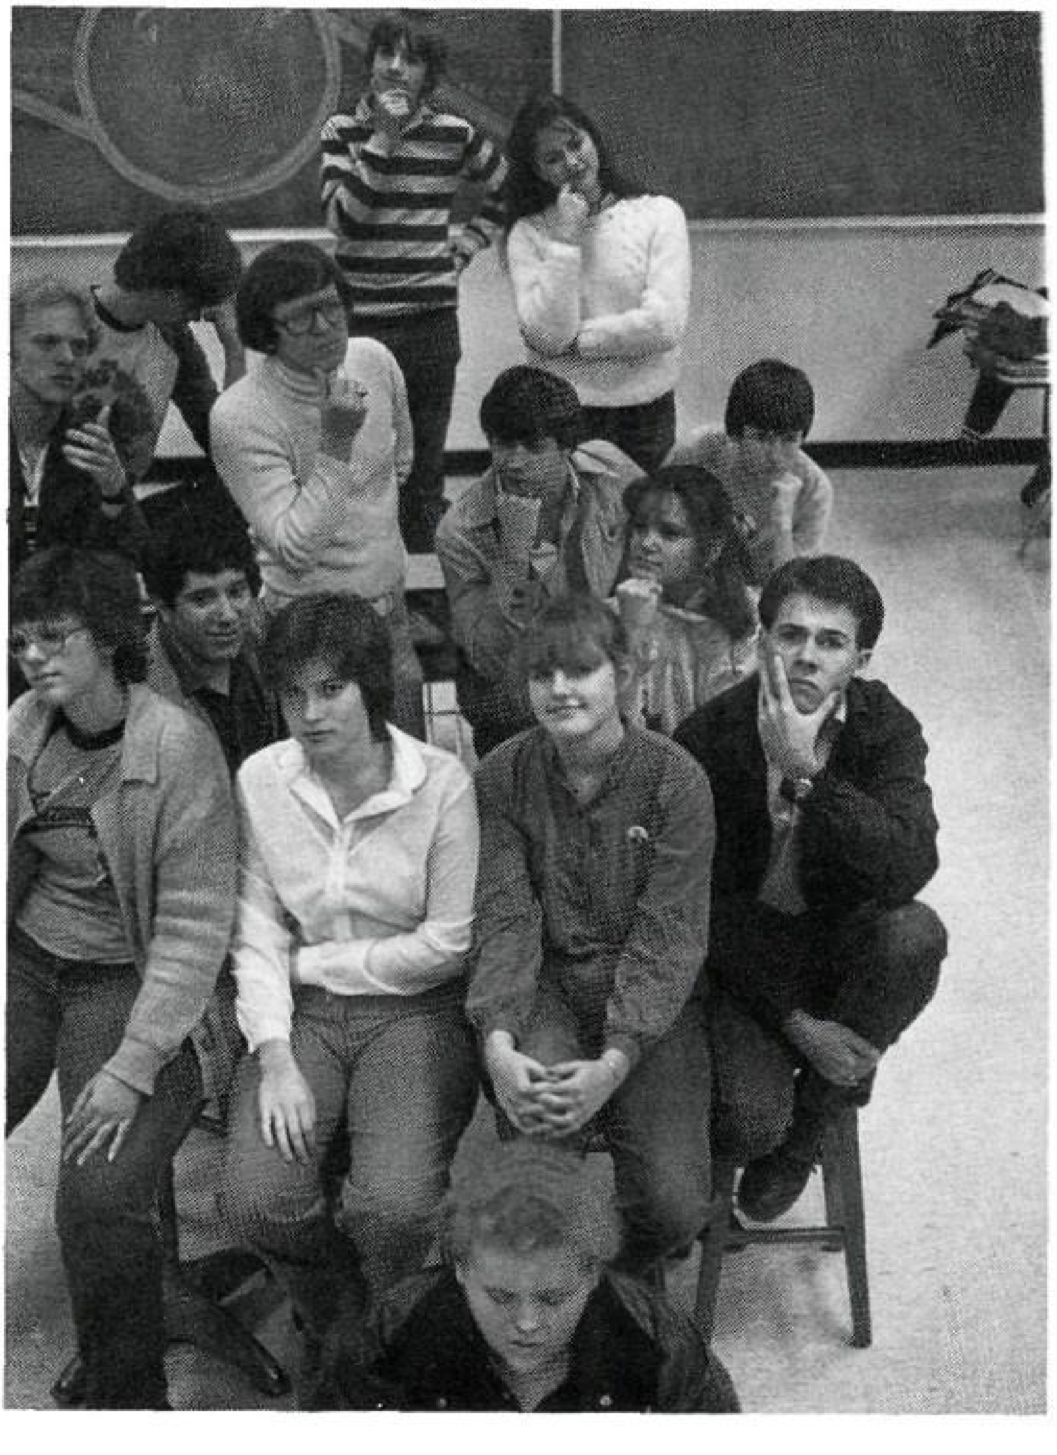
# THE THINKERS



# HERENCIA MEXICANA

## A NEW ORGANIZATION ON THE GROW

**Herencia Mexicana is** an organization to improve relationships between students, administrators, and teachers. This was only the second year for the club. The development of their culture and heritage was the purpose of Herencia Mexicana club. They wanted to preserve the Mexican-American traditions and customs. The members hope their ideas would influence the rest of the student body.

# ART LIVES

## HYSTERICAL CLUB

**The Waxahachie High School** Art Club was founded in 1648 by Spanish explorers who happened to be traveling in the region at the time. The original president, Osgood Waller was a personal friend of the King of Spain. The king agreed to grant the charter as a token of the esteem in which he held Osgood.

**In later years, after** the development of modern high school society, the Waxahachie High School Art Club turned to more tame and civilized pursuits. The Waxahachie Art Club tries to instill an appreciation for the fine arts in those students who are interested. The Club raises funds for club activities which include such things as museum visits and eating pizza.

## TO BE, OR NOT TO BE

**"Does the Science/Math Club** exist? I contend that technically it does, but in theory only. This theory proves beyond a shadow of a doubt that there are no club meetings without a bureaucracy. The theory is also heralded as the champion of those who believe the "They have pictures, therefore they are" philosophy which is simply middle-man double-talk for "Aha, I have my picture in the yearbook again!" The only real thing about the Sci/Math Club which can be proven with any "consistency" is its administrative arm, the Quark Committe. Leonard Nimoy, in his famous "In Search of . . . the Quark Committee," expressed that his belief was that this part of the Club did exist, that is at least when the Vulcan Mind Mold had been made."

## GALA PARADE

**Students at Waxahachie were excited** to get out of school at 2:45 for the traditional homecoming parade. The Freshmen, Sophomores and Juniors worked hard on their floats, while the Seniors decorated their cars. It was a close race, but the Sophomores really ate 'em up winning grand prize for their "Pac-Man" float.

At the end of the parade the Waxahachie fans gathered at Singleton Plaza to cheer the Indians to victory over DeSoto.

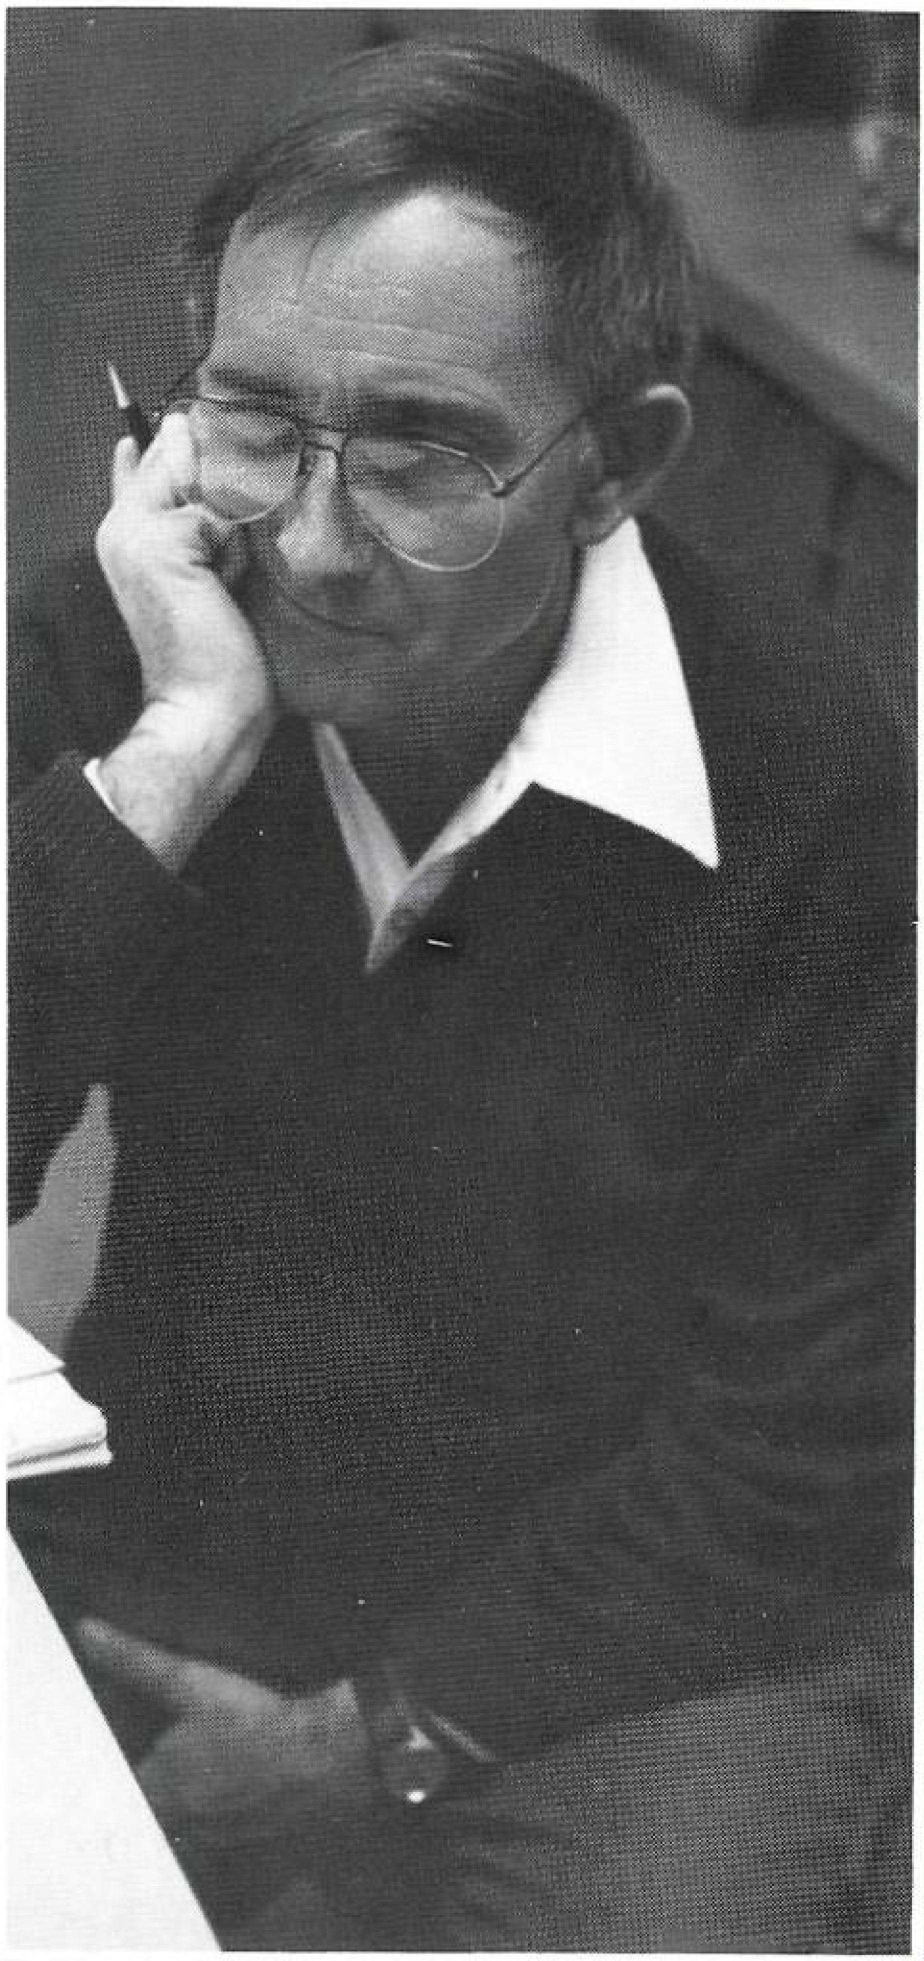
# HYSTERICAL, HISTORICAL HANCOCK



**We appreciate the way** this teacher has helped us through our school years. He kept us laughing with his ever sharp wit. His sense of humor kept him young in our eyes, and it made us realize that he understood us, when others didn't. Just like an army sergeant, he called us by our last names. He spent many extra hours helping with Jr. Historian Club, and making students and the community more aware of the city's heritage.

After 26 years of teaching, this dedication is well deserved and long awaited. We, the Yearbook Staff respectfully dedicate the 1982-83 Chief to **Mr. Billy Hancock.**

# EVERYBODY'S BLUES BROTHER

**Behind the mild-mannered facade** of a history, driver's education teacher, lurks the crazed mind of a Blues Brothers maniac, who once portrayed one of these individuals, known for wearing dark suits, pink crew socks, bowlers, and black sunglasses. In 1979, Mr. Gaylard French played a Blues Brother in one of the earlier "Faculty Follies." This spark of wild mania obsession has slowly formed, and goes back to his high school years at our own Waxahachie High.

He was an active, if not normal, student and was a member of the basketball and baseball teams, the Big Green Indian Band and Stage Band, gymnastics team and was a sports writer for the Beacon. He went on to Abilene Christian University, and graduated in 1971. Upon graduation he taught at Abilene High School, where he met Mr. Jack Alderidge. Later he came back to his hometown and began teaching American History. His spark was still growing, so he tried to put it out by teaching driver's ed., but this only added to the fire. He became a sponsor for the Jr. Historians, and a member of the Waxahachie community Theatre, in which he had parts in eight plays, including the lead part in "Fiddler on the Roof."

But all these things could not push back the iminant uncovering of Mr. Gaylard French's real personality as a "Blues Brother."

# MR. SOLIS . . . AN ALL AROUND GOOD GUY

**Mr. George Solis,** is our new Spanish teacher, but he certainly is not new to W.H.S. He graduated from W.H.S. in 1959. In 1958 he played on the state championship team. His senior year he was voted best all-around athlete and senior favorite. He was the mascot here for three years.

**Mr. Solis was awarded** a football scholarship to Navarro Junior College. He also attended UTA and graduated in 1964. After graduating, he taught at Ennis High School, where he also coached football and basketball.

**In addition to teaching,** Mr. Solis is the pastor of the Primera Iglesia Bautista (First Mexican Baptist Church) of Waxahachie.

# A MAN IN HIS OWN CLASS

**Dr. Ronald Hastings, a man in his own** class; a scholar, philosopher, educator, a new world man. Now, many people may wonder who this Dr. Hastings is. He is most commonly known as "Doc" and is our mild-mannered physics teacher here at W.H.S. Along with physics, Doc teaches Trig./Analysis, Calculus, Computer Science, and the History and Philosophy of Science.

Now that we know who Doc is, where did he come from? Ron Hastings graduated from Cisco High School in 1964. From there he went to Texas A&M, where he earned his Bachelor's degree in 1968, and his doctorate in 1972. In 1973, he came to the small town of Waxahachie and settled down to teach.

Doc plans to continue teaching at Waxahachie High for a while. He is the sponsor of the Sci/Math club and the Philosophy Club because he says he likes to listen to other people's opinions on controversial subjects.

## VOLLEYBALLERS SLAM WITH STYLE

**The Indian Maidens proved** they are the princesses of the court. The Maidens teamwork and pride confirmed the year to be a success.

Coach Cynthia Williams once again pulled her team to championship quality, as she has done so many times before. Waxahachie has upheld its success once again.

**Bottom Row:** Angela Stern, Sharon Edwards, Charlene Simmons; **Top Row:** Marsha Richardson, Sandra Crawford, Shelia Jones

**Go For It!** Angela Stern smashed the ball for another winning point.

**Thrill of Winning!** Sandra Crawford and Angela Stern celebrated after winning.

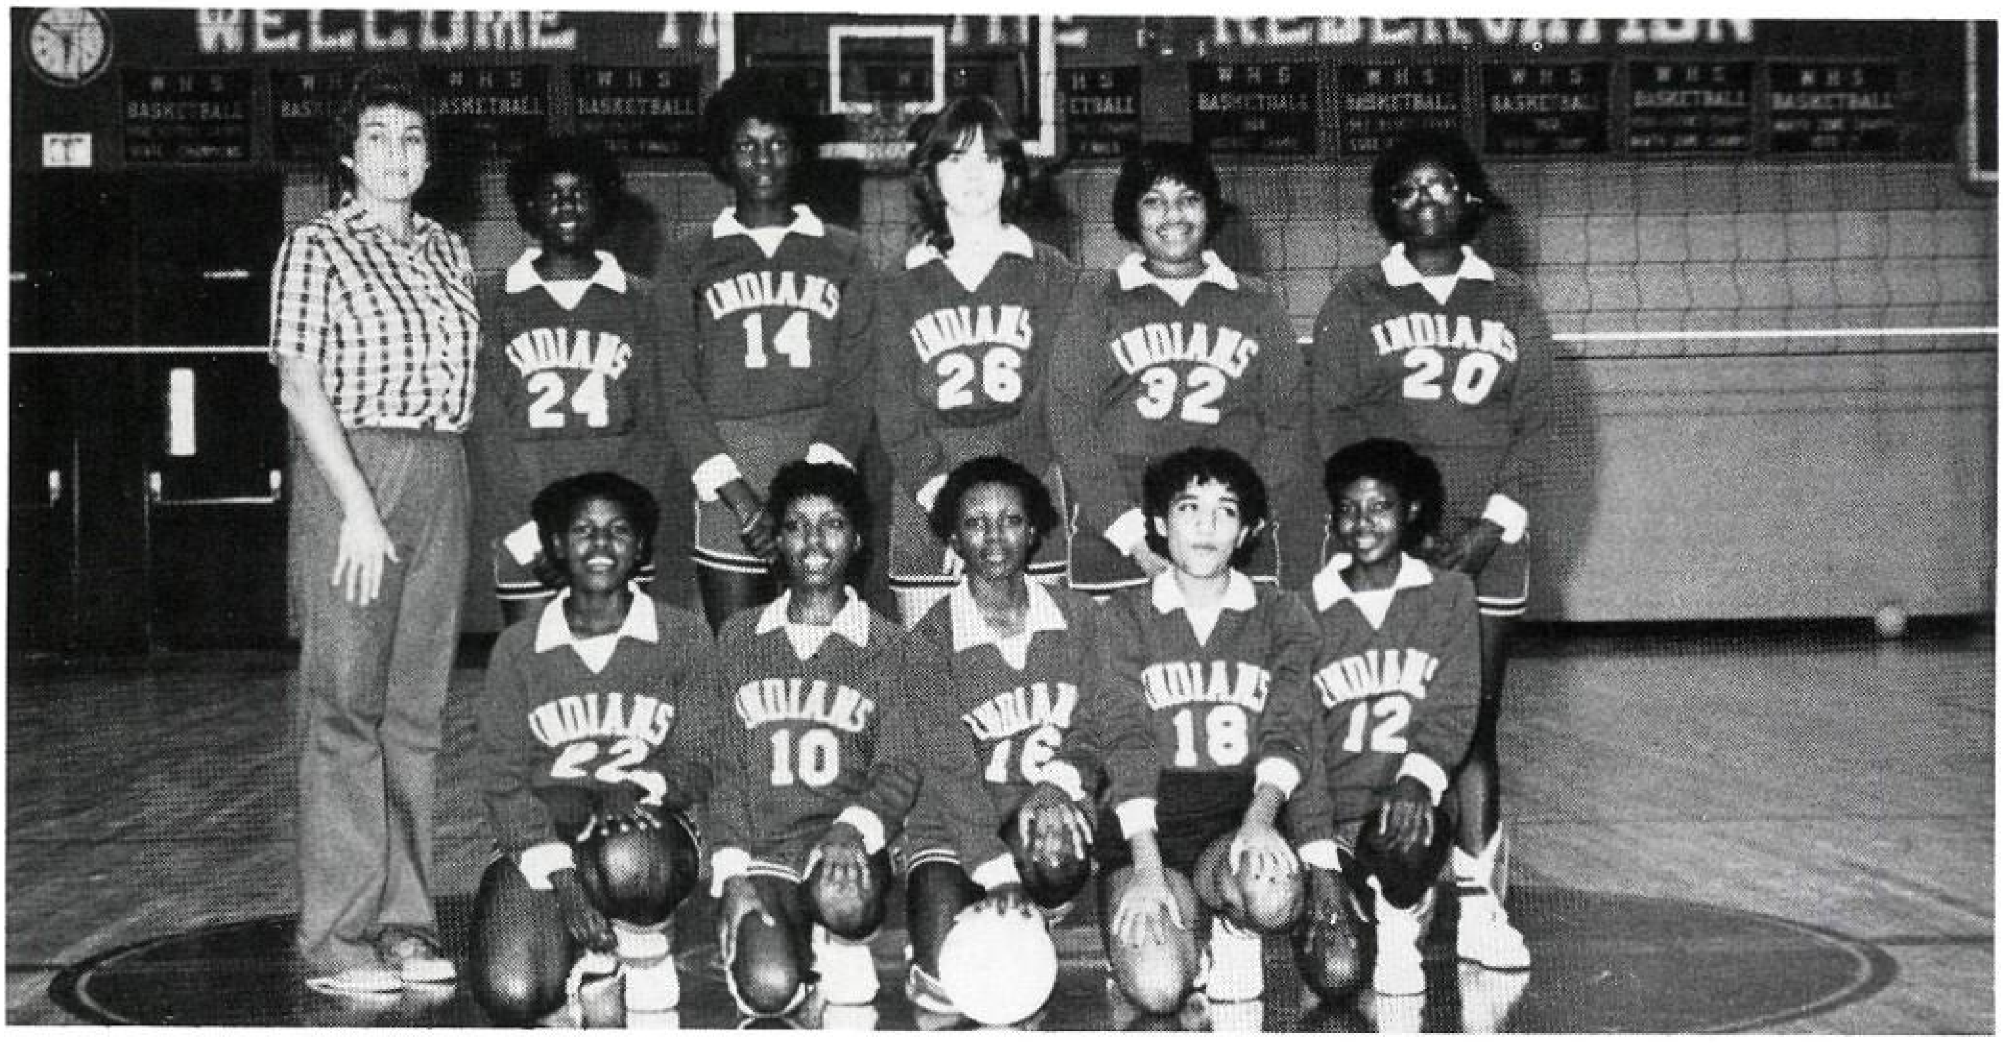
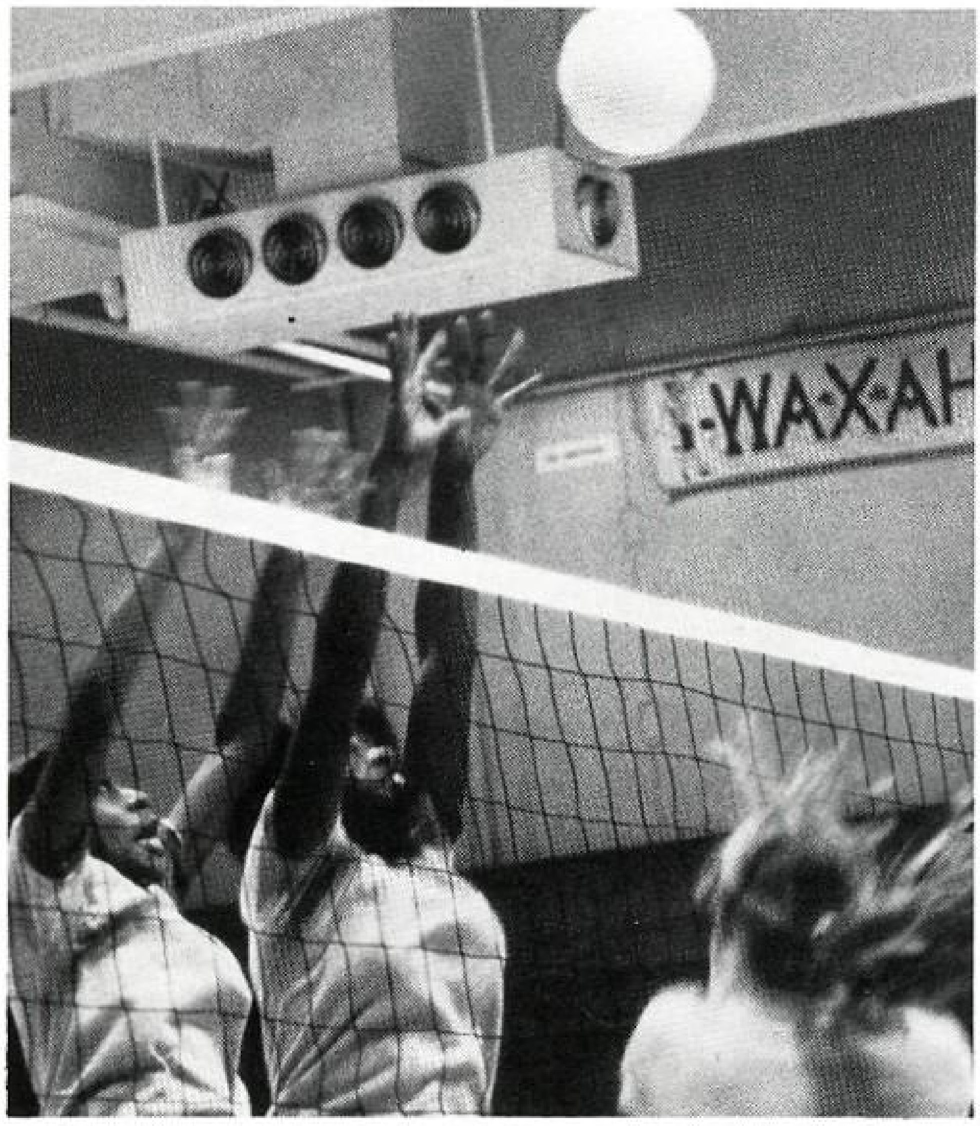
# JV WEREN'T BAD EITHER

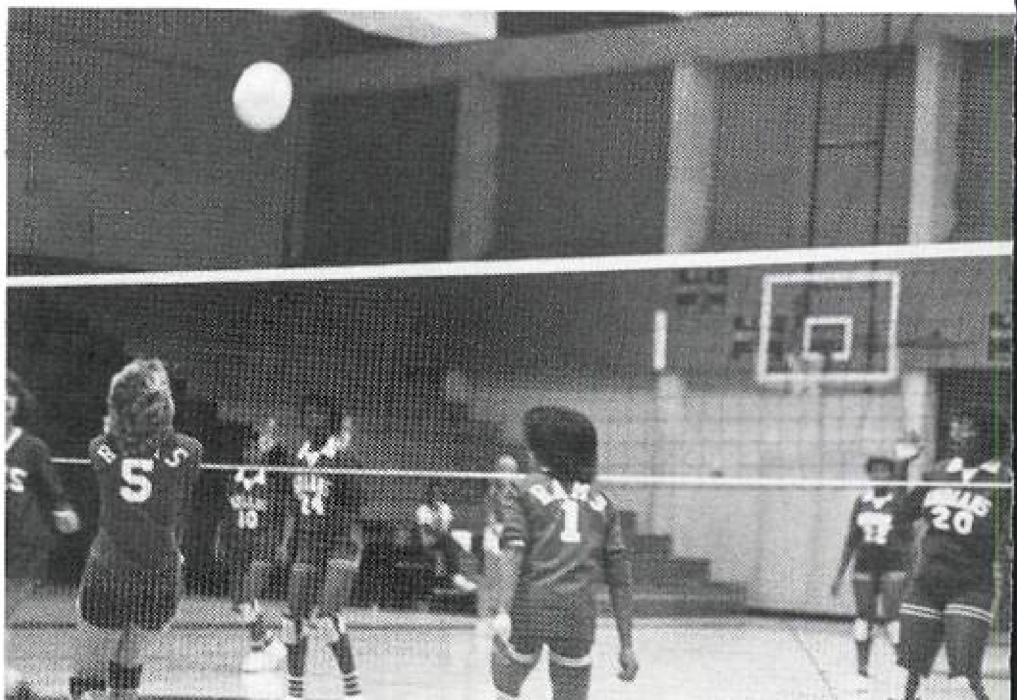


**Bottom Row:** Sandra Jefferson, Michele Brown, Shirl Sullivan, Jolenta Edwards, Leann Montgomery; **Top Row:** Coach Williams, Racquel White, Lisa Foster, Barbie Steele, Patricia Montgomery, Renee Shead

J.V. Volleyball Maidens spent many hours practicing their spikes, serves, and set-ups. Even though they didn't receive as much recognition as the varsity they still have won a place in our hearts.



Can't score on us!



Maidens set up for a spike.

# JV DOMINATE

The Waxahachie Junior Varsity football team played with the determination to win this past season. The Indians came out on the top of some **very good** competition and won the district championship. The J.V. are being groomed to fill the shoes of some very talented varsity seniors and they are looking forward to doing so with great enthusiasm.

# THEY BOUNCED BACK

**The Running Indians wiped** out the opposing teams, leaving in their wake only old shoes and broken backboards. Indian fans were overwelmed by the green and white's ability to manhandle basketballs and enemy players alike. The force behind this great team, Coach John Nickols, guided our Indians with a calm, steady determination. There will be no forgetting this year, the year of the Indians.

**Tennis was not just a** simple game in which a little yellow ball was hit over a net. It involved a lot of effort and hard work. The terrific twosome.

The girls volleyball team was made up of six players, but when they were on the court they worked together as one. These six individuals did so much together which could never have been done by any one person. There was a special relationship between these six. They finished a tremendous season with 32 wins, 6 loses. During the season they won two trophies, consolation at Arlington and third place at Birdville. In the Playoffs, they beat Waco High, and then Madison High for the Bi-district title. They made it to Regionals, where they beat Palestine, and then on to STATE. At the State Playoffs they opened against South San Antonio West with a terrific win. The next game their hard work and patience practice didn't hold them good, and they fell to the Monahans. Some would say the season ended up bad, but our Indian Maidens made us proud, and as Charlene Simmons said, "We may be ranked #2, but we're still #1!"

# TIN GRINS WERE IN

There are many hazzards as a result of being a "mirror mouth," or having "razor lips." Imagine talking to someone with braces and suddenly getting a pair of itsy-bitsy rubber bands in your eyeballs, or sitting across a brace-wearer at a lunch table and having to look at those disgusting little wads of food in their teeth mixed with a load of wax. Oh Gross!

Even though there are many problems for a bracer, they usually learn to grin and bear it!

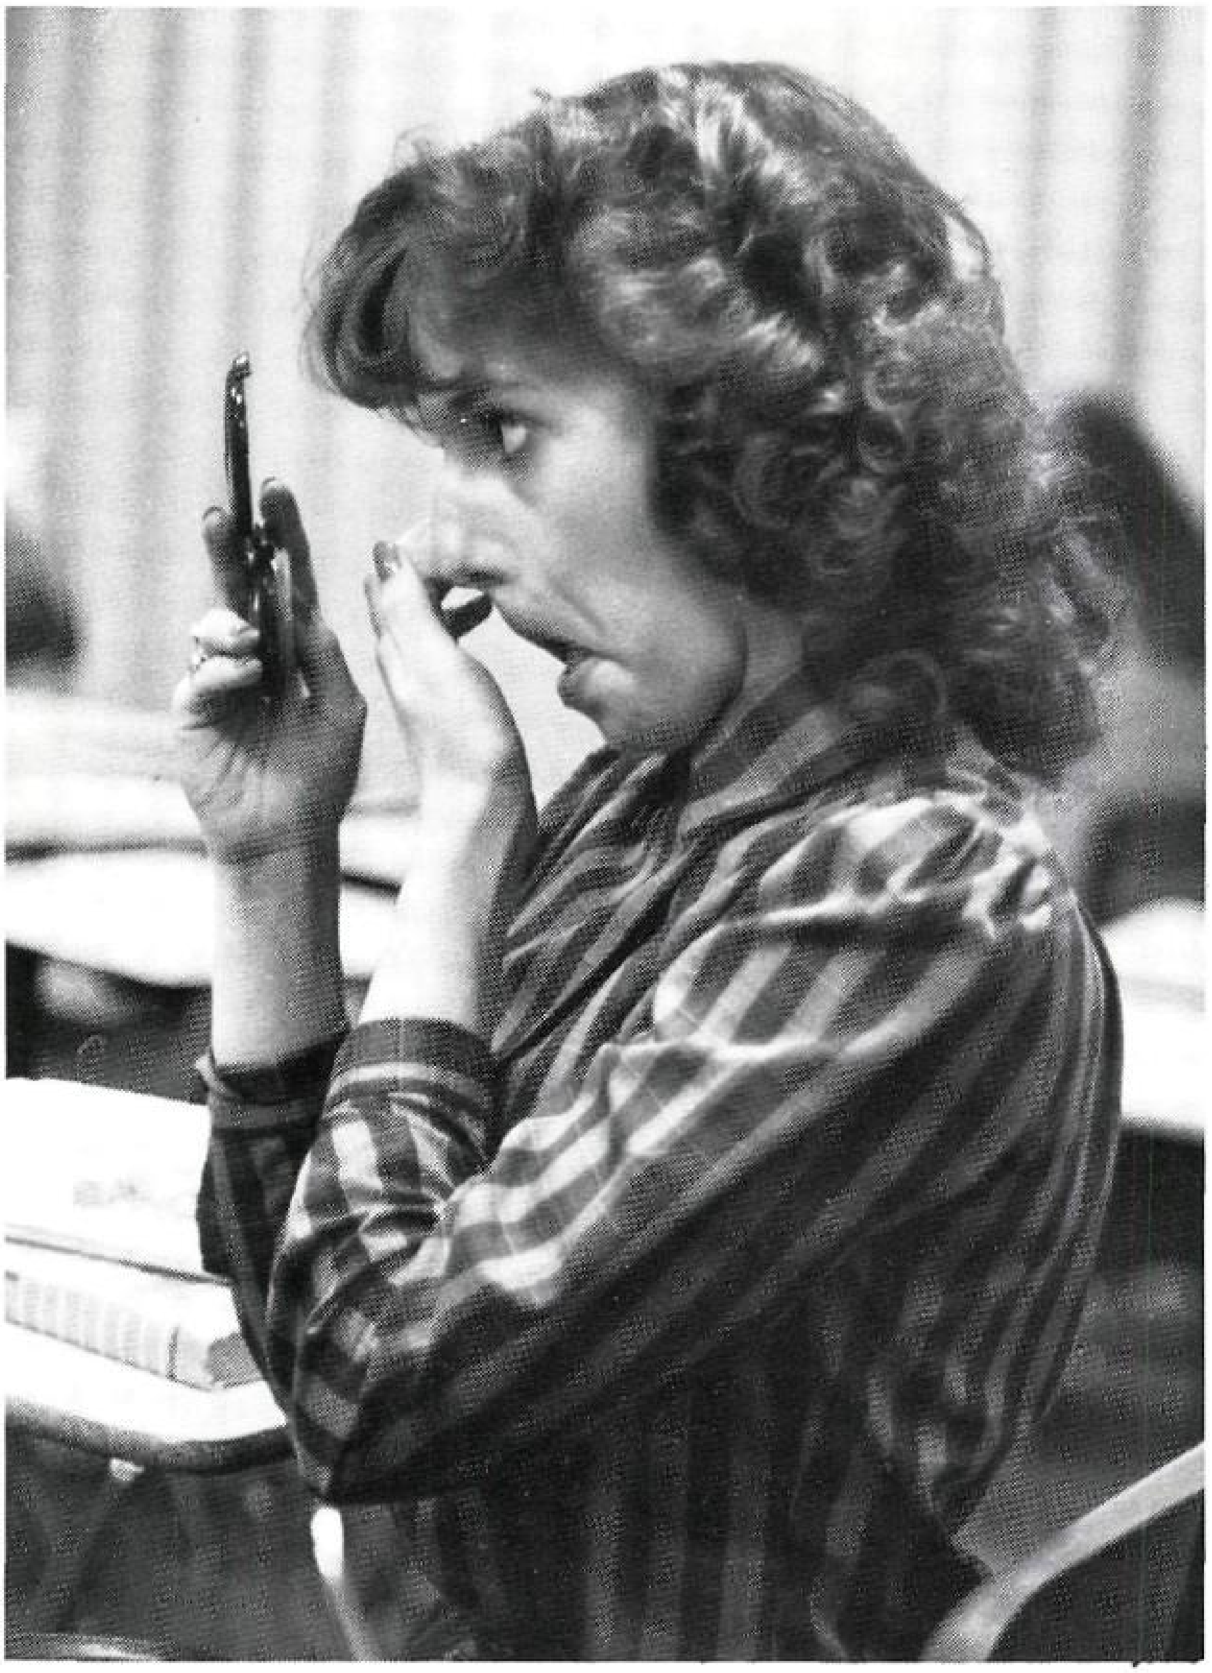
# PRIMPERS PLAGUE CAMPUS



**Through the hallowed halls** of W.H.S., a disease is running rampant. This disease is known as PRIMP syndrome. Most of the female student body is heavily infected by this disgusting disease and will probably possess it for the rest of their natural lives.

In almost every class of everyday of the week these "primpers" can be seen doing their thing. Why is it that girls must constantly brush and curl their hair in class? Why must girls (especially Freshmen girls) cake layer upon layer, inch upon inch of that crusty, brown liquid upon their faces. Sometimes I wonder if I am actually seeing what the girl looks like, or just a made-up clone!

Fingernail polishing is one of my pet peeves!! How girls can sit in a class room polishing their nails with fifty shades of red, purple, organic green, clear with psychdelic glitter, and many, many others, is beyond my comprehension.

One day I saw a girl with some kind of claws, twisting, and turning her eyelashes, I said, "Stop, stop it that's disgusting I can't stand this any longer. Why do girls subject themselves to such torture?" She simply turned to me and said, "So we can make a good impression on the boys, silly!"

The funny thing about it all is, the girls were always so busy primping that the guys rarely get a chance to see what the girl actually looked like.

# CARS CARS CARS CARS

AT W.H.S. cars played an important part in the lives of most of the students. Cars were not used only as transportation up and down Ferris Avenue, but to and from school, work, and especially dates! Each person's car seemed to have a personality of its own. Just by looking at each individual's car, a lot could be told about that person's life style. For example; People who had a beat up pick-up truck usually lived and worked on a farm. While a person who had a nice clean pick-up usually was just a weekend cowboy. (dressed the part.) People with sporty cars were always seen washing them at One-Stop, while people with ordinary cars never washed theirs. Even though I have left out some of the different types of cars, most of them will probably be seen still cruising up and down Ferris for the rest of eternity . . .

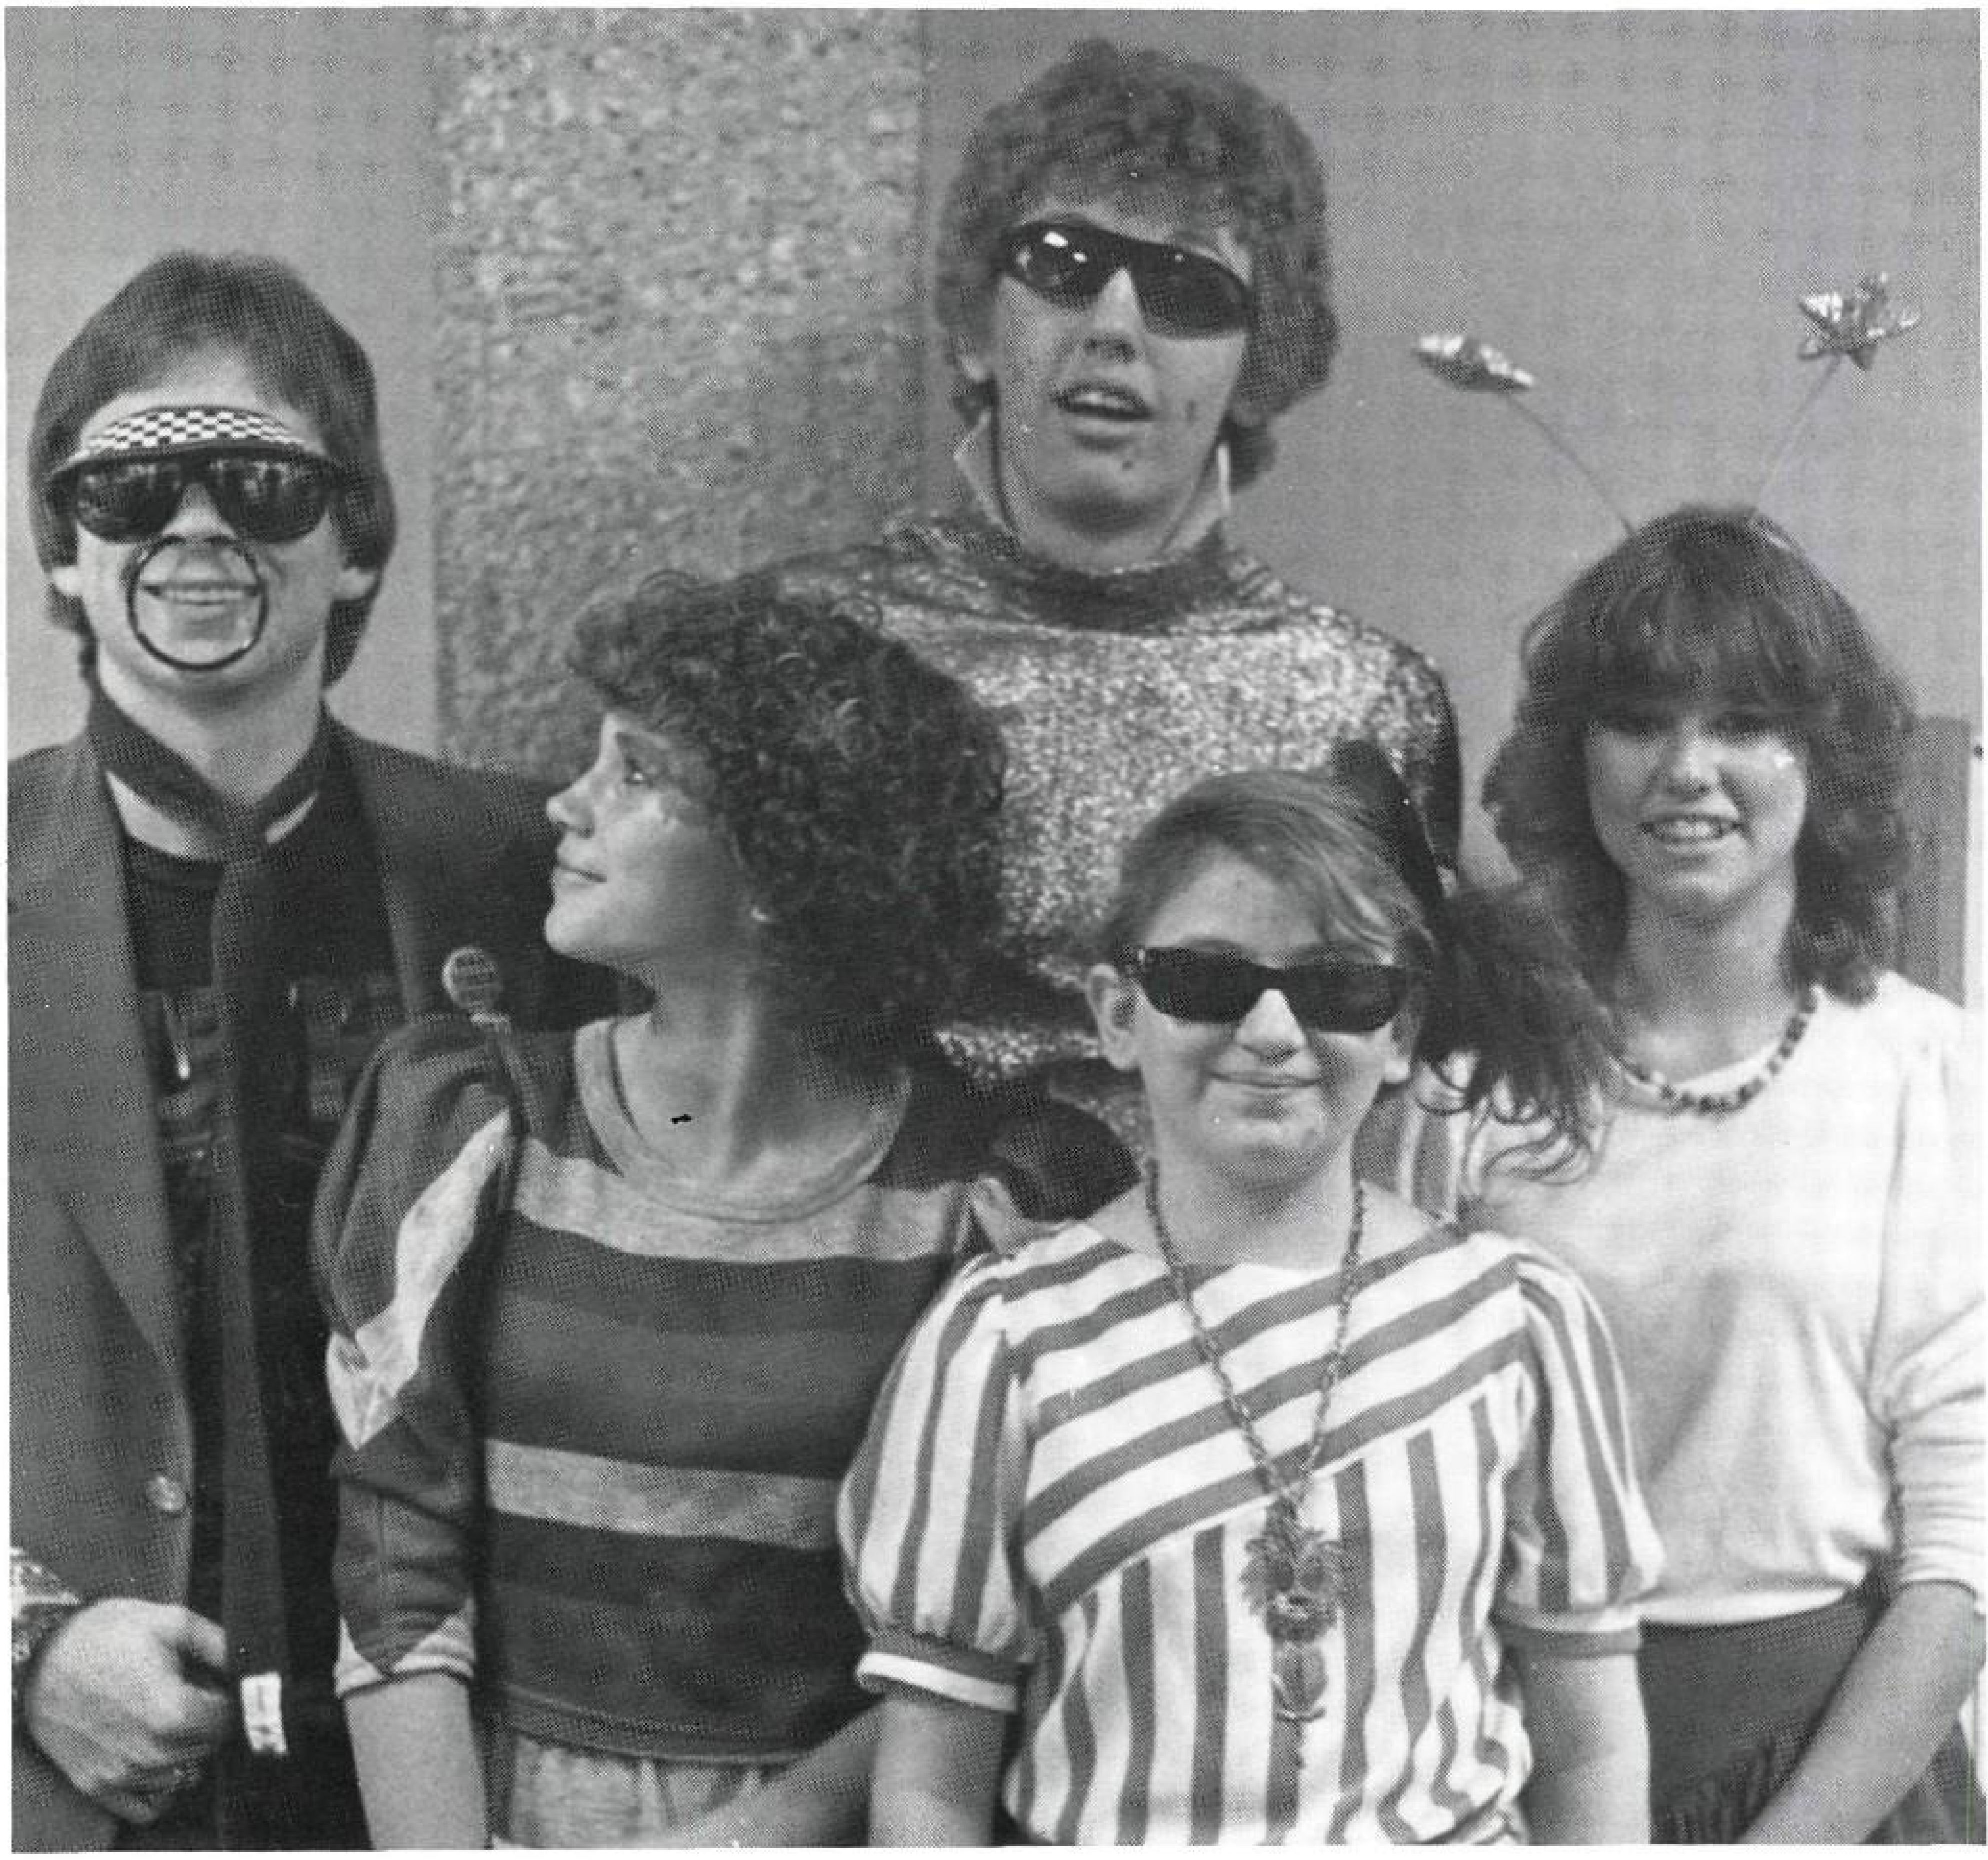
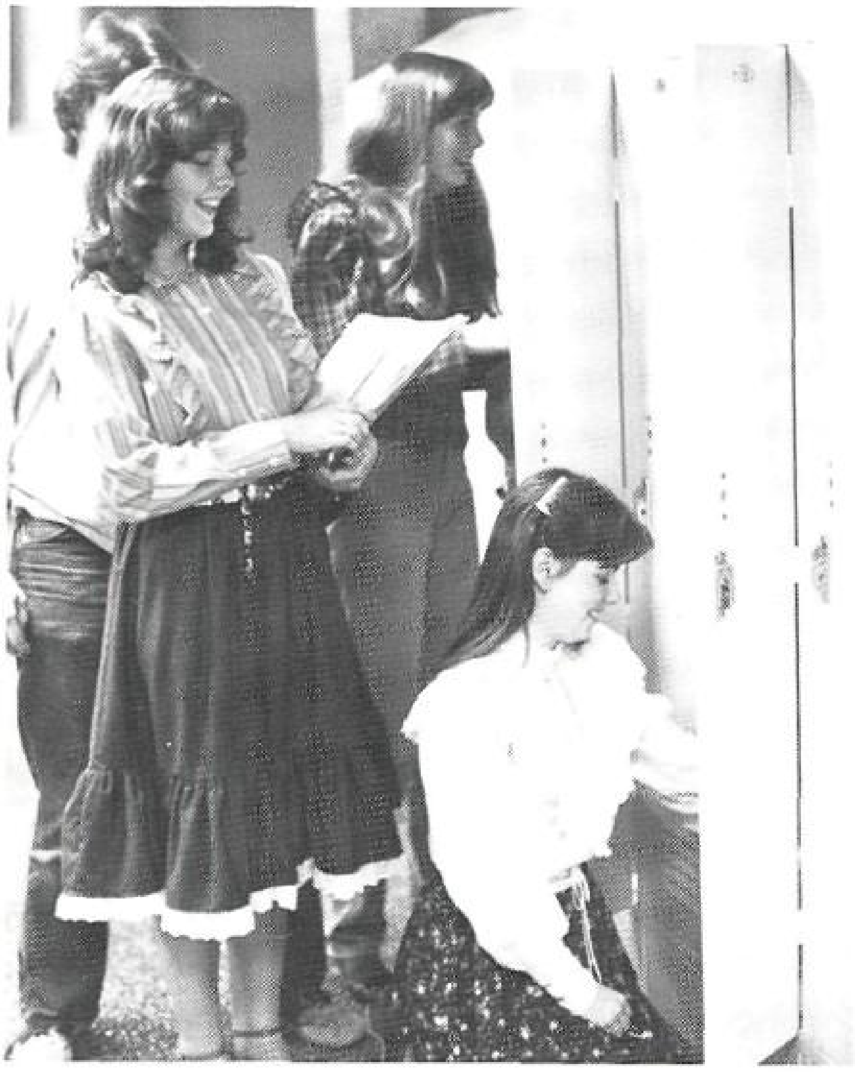
# PUNK, PREPPIE, AND PRAIRIE

**Ever wonder why you're** getting those strange stares in the hallway? It's what you're wearing! There **is** a dress code at Waxahachie High, but it only covers the clothes that students should or shouldn't wear. The W.H.S. Handbook **doesn't** tell you in what order to wear them! Most people try to choose clothing that fits their personality.

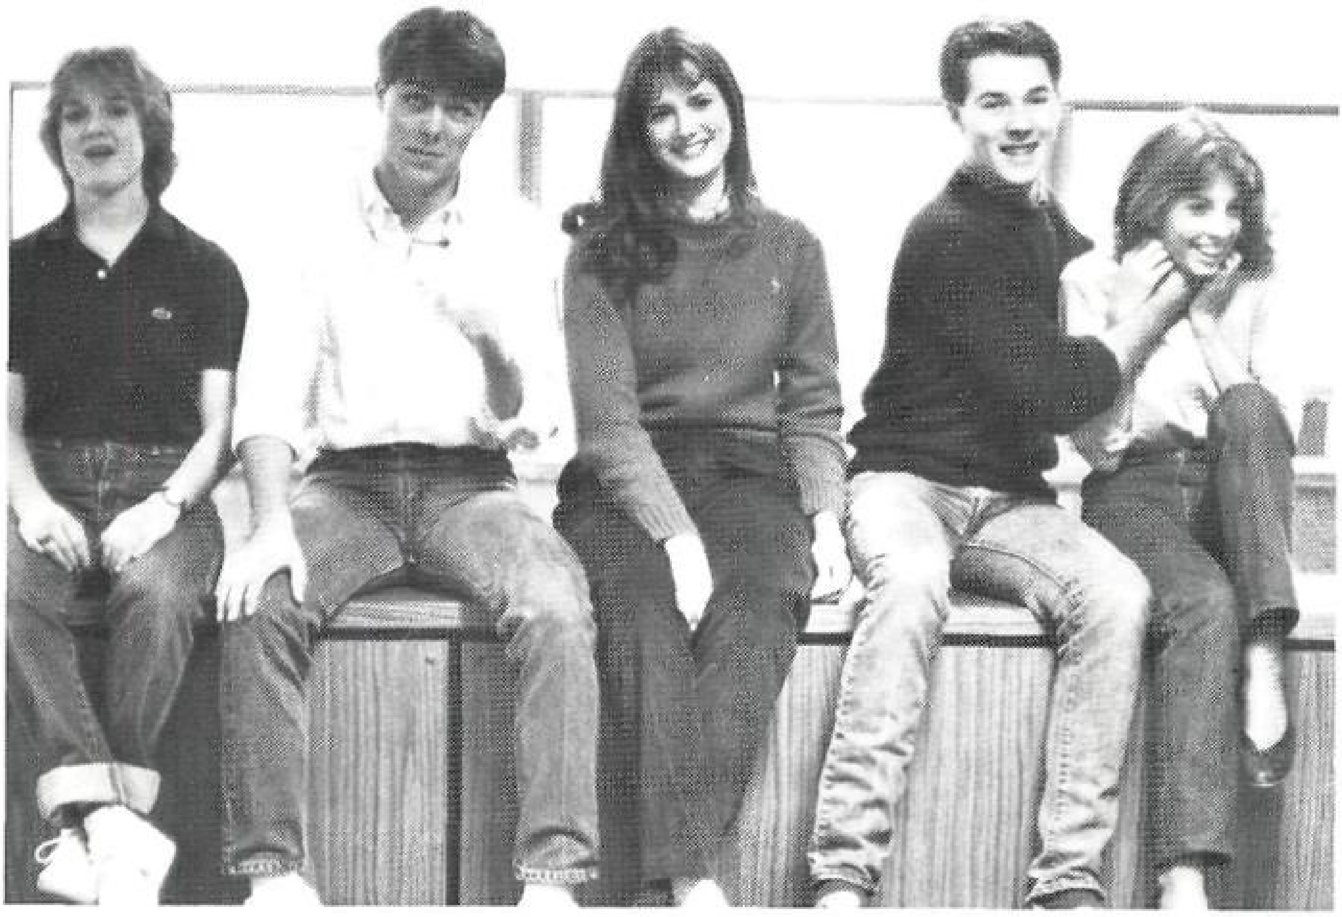


First, there's Punk, which is a unique combination of colors and materials. A rather shocking form of a quasi-Sex Pistols wardrobe.

# WHS FASHION



Next, there was the Prairie outfit. Equipped with a frilly blouse, a concho belt, and a western skirt with ruffles ( to cover the top of the cowboy boots), the girls dressed this way go to class looking like a rancher's daughter on her way to the big city.



Finally, there was the most popular "movement" of fashion that hardly gets any stares any more, Preppie. At least in this area, the preps stand tall and proud (usually with good grades) with brands such as BLASS, Izod, and Polo. All you need to be a Prep is an Argyle sweater over a Brook Brothers Oxford shirt (with a button - down collar), Khaki pants, no socks, and a pair of Sperry Top- siders.

# PATIO PEOPLE

The smoking patio seemed to have been a place of refuge and relaxation to those people who enjoy a little bit of freedom and a lot of cigarettes. Disregarding the warnings on packages, these student smoked their way into the hearts (and lungs) of the non-smokers. These people certainly had determination and strength. They huddled together, trying to gather warmth during the winter. In the summer, the blistering Texas sun could be seen beating down upon their backs. Even in the rain, a few stubborn souls faced with a laugh Mother Nature. neither rain, nor snow, or dark of night would have kept the smokers from "Their Spot."

# SUMMERTIME ESCAPES

**It's summer, and you** have three months to blow, so what will you do? Most people make journeys to distant relative's houses, and others just stick around in local town.

The question is either to go North, South, East, or West. A person may travel to the West Coast to visit cities like Los Angeles or San Francisco. Others may travel to the East Coast to see our nation's capitol. The more downhome character may find their way down a winding forest road in Colorado in search or a campsite. or, if you're a beach-bum type, you may find your way to such places like Galveston or Padre Island.

The trip to top them all would be a trip to Europe. Imagine seeing the spectacular sights of London or Paris. It would be truly awesome! So as you're sitting home this summer getting bored, think about a few of these options for your summertime escape. Just remember, summer vacation can really be dull. So think it over and take a vacation. You won't regret it!

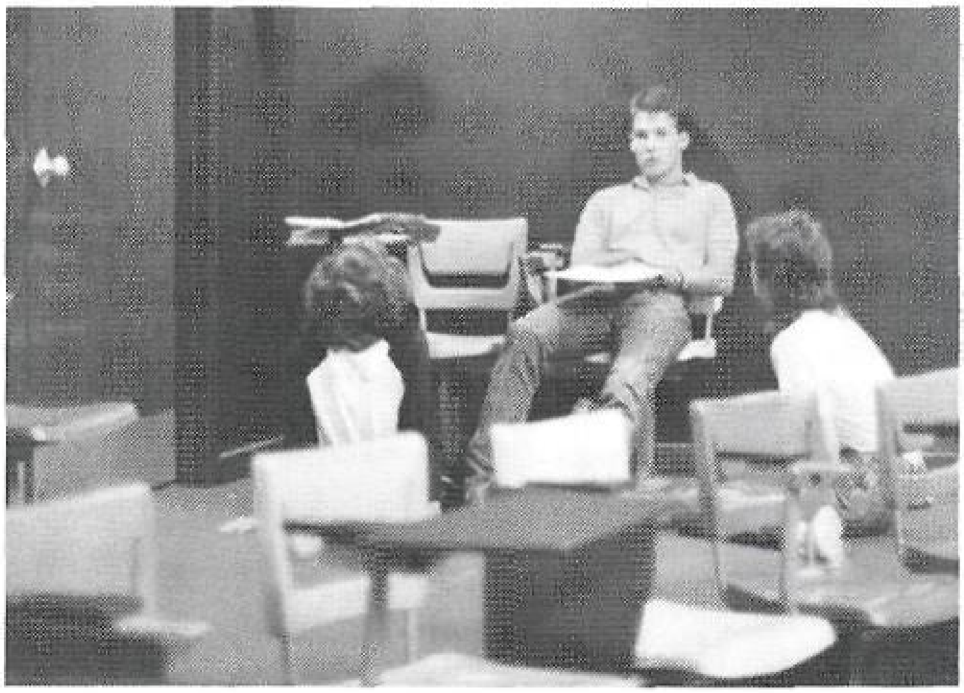
# DREAM DEALERS

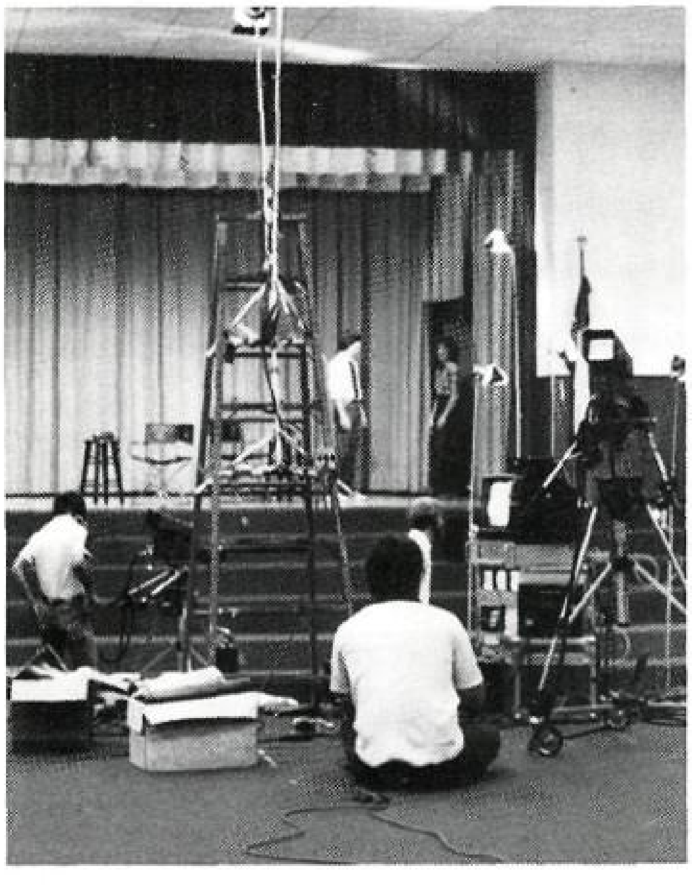
The Students of the Speech and Theatre Department made their busy schedule pay off this year.

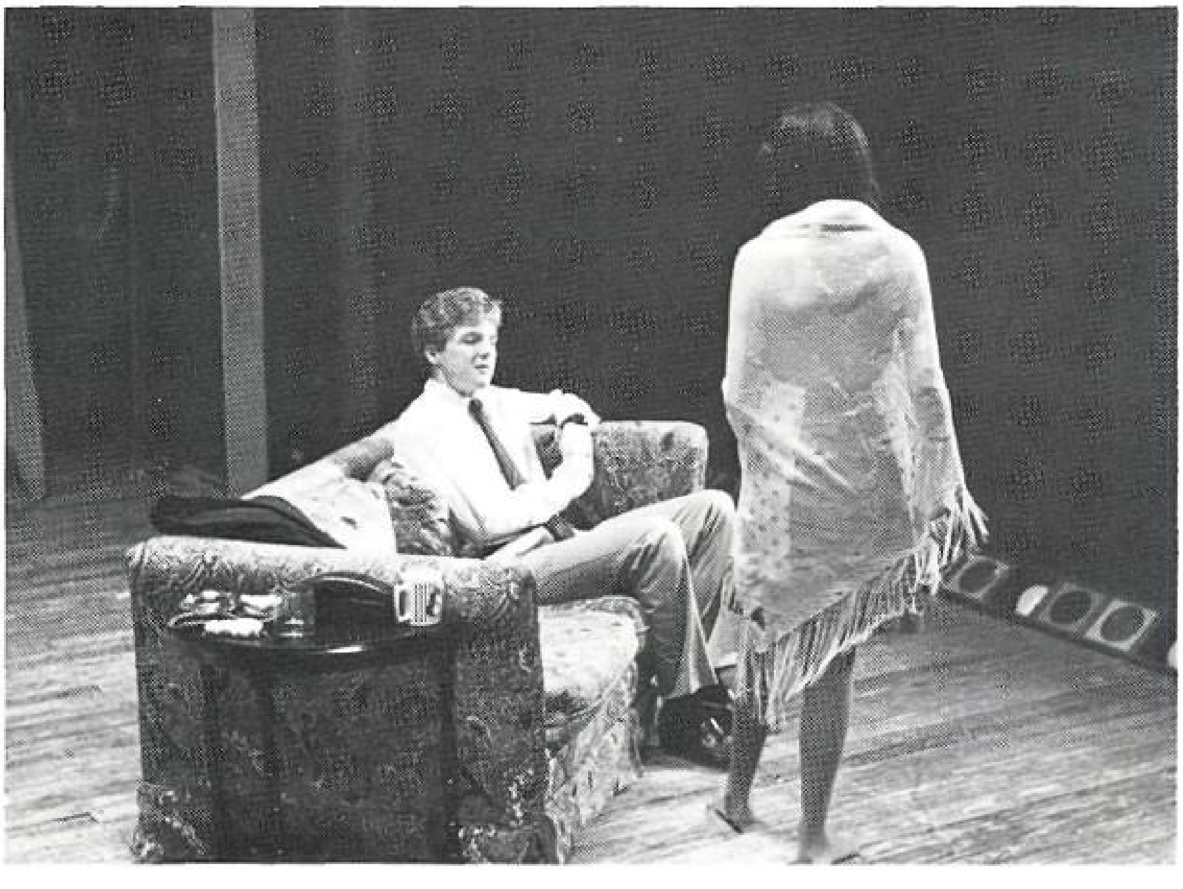
Whether at tournaments or on stage, they excelled. At both the Ennis and the DeSoto Tournament, they won 1st place sweepstakes trophies, as well as numerous trophies for individual competition.

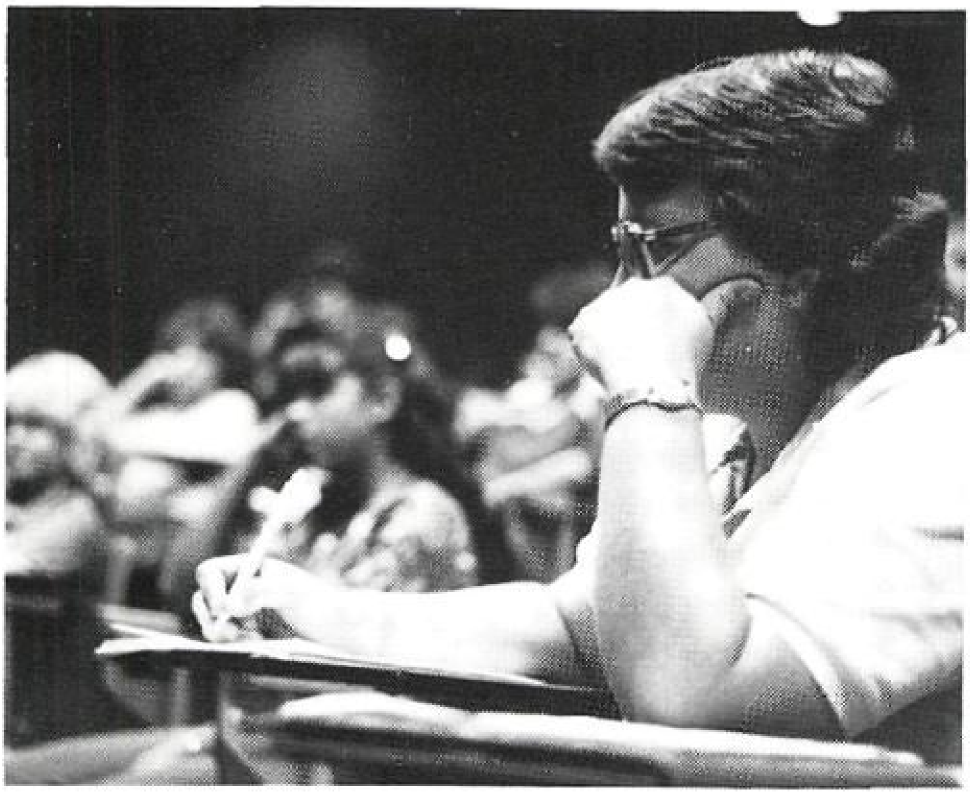
On stage, the Thespians presented three plays. The Chautaqua was the scene of the fall production, "Tribute", which starred Rob Edwards, Kristi Cox, and Matt Kauffman. The UIL One-Act production of "The Cave Dwellers" featured Jamie Loftis, Jon Reese, Holly Fuller, and Ashe Laughlin. And the spring production of "Thieves" starred Kristi Cox and Ashe Laughlin. All three plays allowed actors and audiences alike to examine Society's problems more objectively, in the true spirit of educational theatre.

In addition, a charitable distinction was recognized in the department's members this year when they put together 12 hours of entertainment for a telethon which benefited Lion's Park.

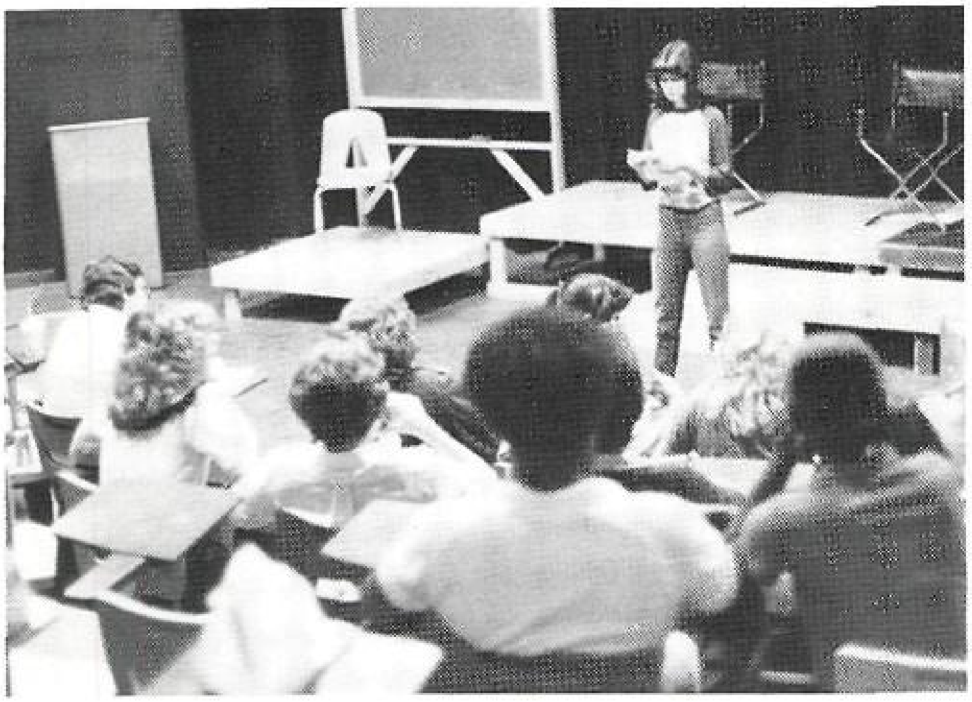








Nancy Montague considered a future cast.



Jill Eves and Matt Kauffman acted in "Tribute".

# EXCITEMENT THAT PAYS

This is Jerry Steadham. He drives this 53-ton tank and is a full time contractor. His work week is no different than yours, but once every month, he leaves his regular Monday through Friday grind. He puts on his sergeants stripes for a weekend and becomes a Texas National Guardsman.

STEADHAM
EXAS ARMY NATIONAL GUARD ARMOR

His uniform allows him all the excitement and action he can handle. It gives him an extra paycheck each month, and a chance to learn a skill like electronics maintenance, heavy equipment mechanics, paramedic training and many others. You can have it all, too. More excitement to your life and a better future right now with Texas National Guard. Join us, live the tradition and get excitment that pays.

Contact your local Guard recruiter through the Army National Guard Armory, 628 Grand Ave., Waxahachie, Tx. or call (214) 937-1401.

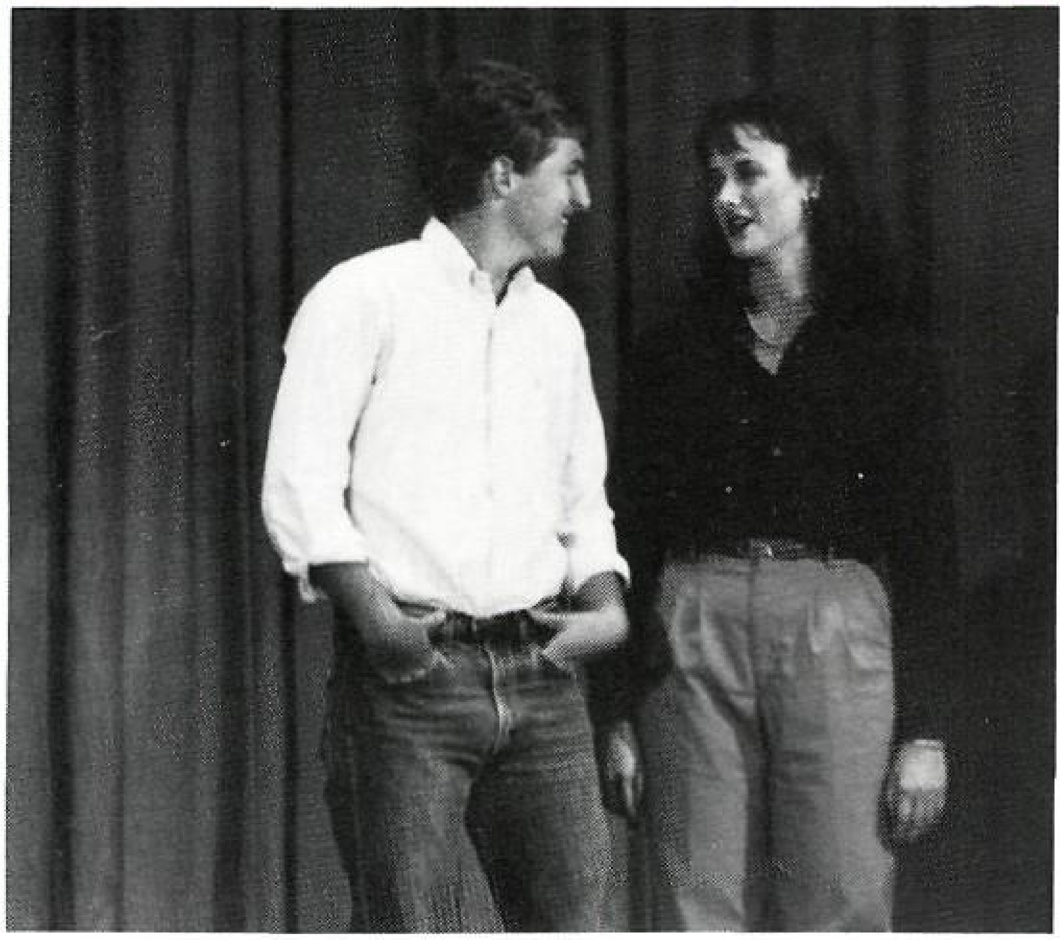
# EDITOR'S NOTE

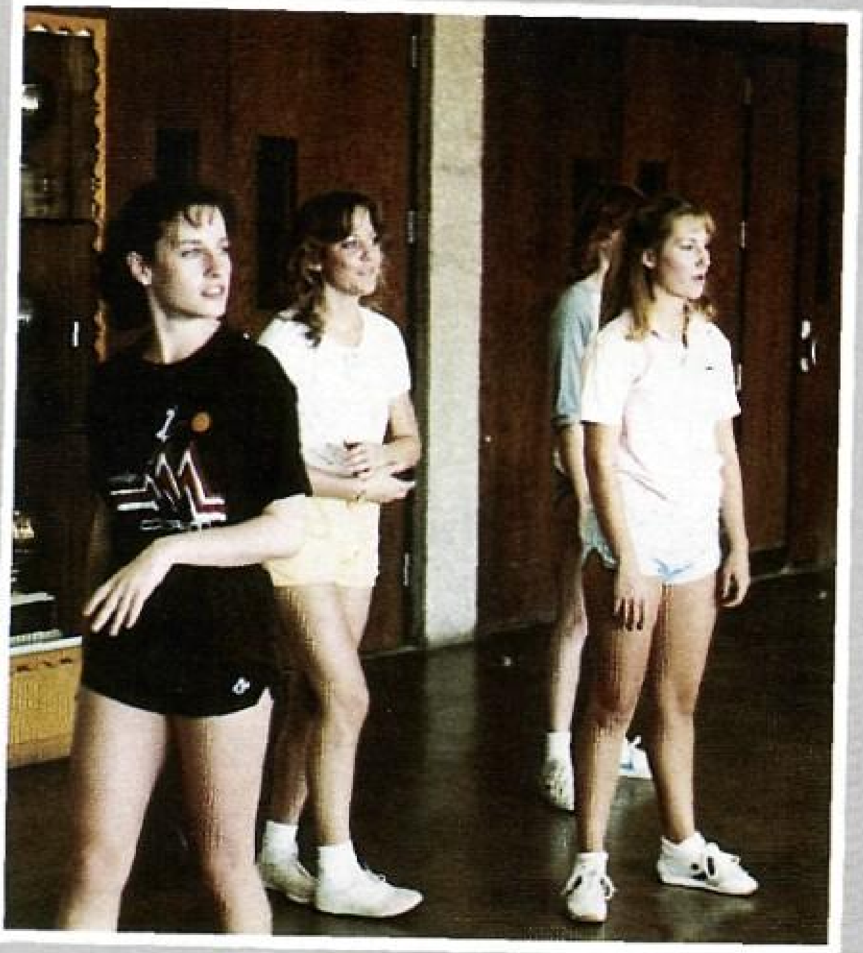
Being editor of **The Chief,** during my junior year, was a total learning experience for me. I discovered I had to be aware of what everyone in the school was doing all the time. After I found out that information, then I had to record it with pictures and writing in the yearbook. This task was not easy, but I fulfilled it to my best ability.

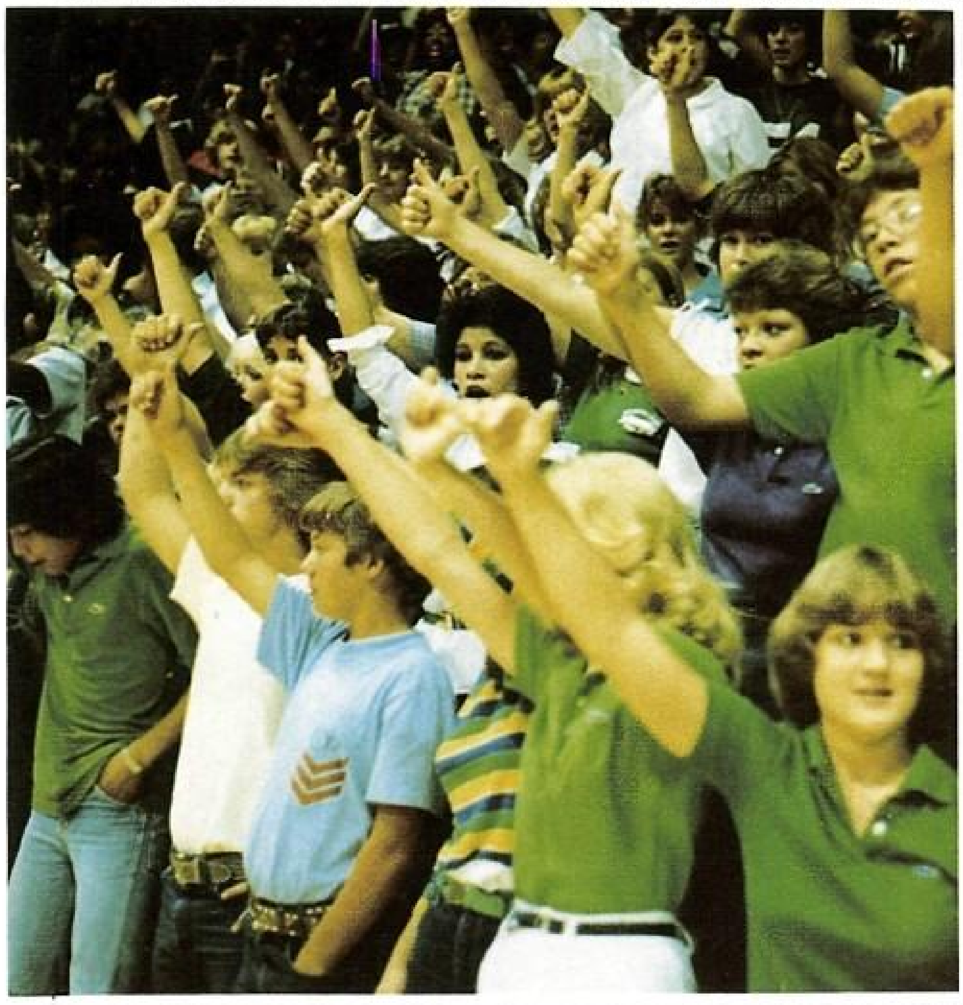
Working on the yearbook made me aware of how different people are. There were numerous clubs that students were interested in, sports that they played, and honors that they recieved. I realized that striving to be our own persons would benefit us individually and our school. With these thoughts in mind, our school could have done nothing but get better. And it did. It improved.

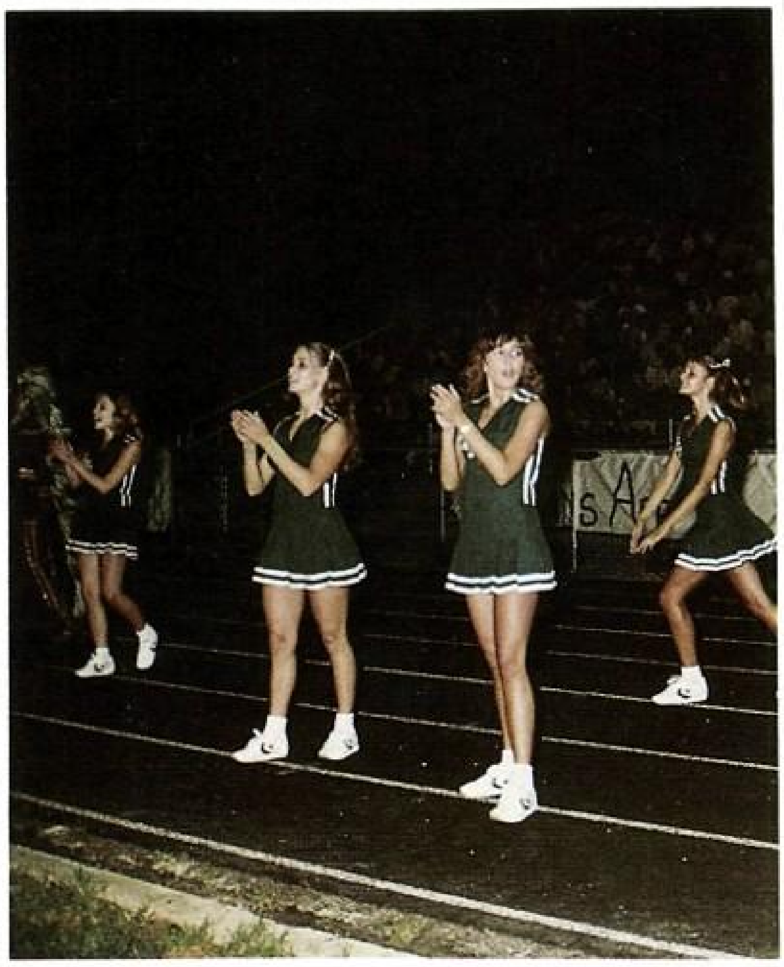
Here is our book. It is a gift, one that we, the 1982-83 staff prepared, but that you, the students of Waxahachie High School, made.

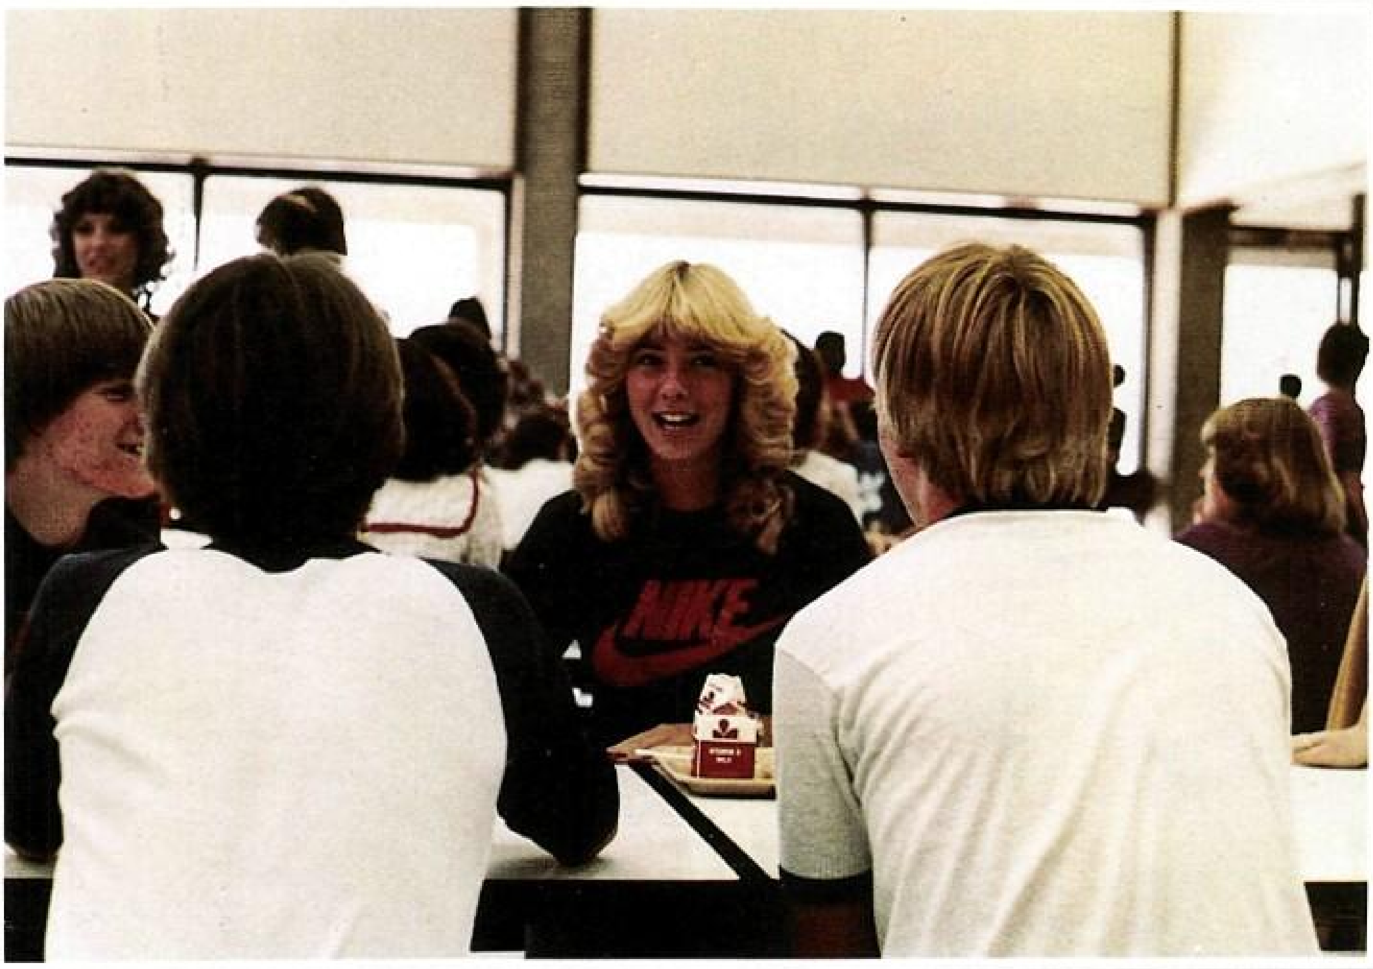
Kristi Cox
Editor of The Chief
1982-83

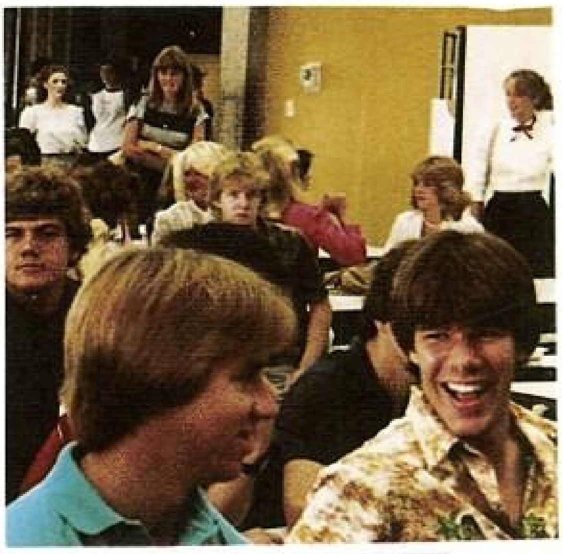












**Our town, two worlds existing side-by-side. Your world is as big as you make it. The sight of the distant horizon brings a burning desire to conquer things not yet dreamed of. You can soar with the wind if you believe you can.**

# THANK YOU MR. D.

**The student body, faculty,** and staff of Waxahachie High School acknowledges with gratitude and appreciation the many contributions made to our school and community by Harold Dorsey. Mr. Dorsey came to Waxahachie in 1952 as the band director, and served as the Marvin Elementary principal and the Junior High principal before coming to Waxahachie High School as principal in 1972. After more than thirty years of dedicated service to this school district, Mr. Dorsey has announced his retirement at the end of the 1982-83 school year. His commitment to young people and his excellence of leadership have been apparent through all of his years of service. He has been a constant source of encouragement to students and teachers alike. He has earned the respect and admiration of us all. Waxahachie High School will greatly miss Mr. Dorsey's presence in the days to come, and all of us here sincerely wish every joy and happiness to him. Thank you, Mr. Dorsey, for a job well done!
